

### **Local and National Teaching Faculty, Analysts, and Supervisors of Candidates**

We have a theoretically and clinically diverse assembly of local and national teaching faculty, supervisors, and analysts of candidates. We continue to expand our faculty and our options for personal analyst and clinical supervisors in an ongoing way. Below are the lists of our current Teaching Faculty, Supervisors, and Analysts of Candidates.

A candidate may request an analyst who is not on our current list to be their analyst or supervisor. We determine the analyst's eligibility based on their eligibility for membership in APsA, years of independent practice, and clinical experience doing psychoanalysis.
